

Help Shape the Future for Young People in West Sussex

West Sussex County Council is developing a new Young People's Strategy and are seeking views of young people, parents / carers, communities and organisations on the proposed priorities for the strategy.

The strategy will help shape leisure-time and recreational opportunities for young people aged 11 to 19, and up to 25 for those with Special Educational Needs and Disabilities (SEND), over the next five years. It focuses on improving access to activities and opportunities that support health and wellbeing, confidence, skills development, positive relationships and community connection.

We would be grateful if you could take a few minutes to complete the survey and share it with relevant local networks, community groups, young people, parents and carers, schools, leisure providers and partner organisations.
